📄 Executive Summary

Key Findings

✅ **Shift to lead-based focus**
Starting December 2024, investment shifted from "messages" to "leads," emphasizing higher-quality conversion goals.

✅ **Mahar Real Estate leads on efficiency**
Lowest average CPL (~Rs1,337 in May 2025), with highest lead volume (187 in May 2025).

✅ **Vistro Real Estate strong in volume**
Consistently high message volumes and strong lead volumes at moderate CPL.

✅ **Kings Real Estate moderate efficiency, high spend**
Relatively high CPL, especially in early lead campaigns.

✅ **Zavia needs review**
High CPL volatility, inconsistent performance.

💰 Platform ROI & Performance

Overall Cost Efficiency

- **Average CPM**: Rs283 (messages)
- **Average CPL**: Rs2,240 (leads)
- Mahar Real Estate CPL in May 2025: Rs1,337 (lowest among all platforms).
- Kings Real Estate CPL in May 2025: Rs2,577 (higher than others).

Message Campaign Phase (July 2023 – Nov 2024)

- **Top performer by messages**: Vistro Real Estate
- **Most cost-efficient CPM**: Vistro consistently < Rs160, except a few months.

Lead Campaign Phase (Dec 2024 – May 2025)

Platform	Avg CPL (approx.)	Peak lead count (month)
Mahar Real Estate	~Rs1,800	187 (May 2025)
Inaya Estate	~Rs2,000	87–150 range
Kings Real Estate	~Rs2,900	140 (April 2025)
Zavia	~Rs3,000	120 (April 2025)

💡 Trend Analysis

Shift from message to lead campaigns

- Started in Dec 2024; budget redirected to leads.
- Lead volumes increased consistently, CPL reduced.

Seasonal patterns

- Budget peaks in April–May 2025 align with higher lead volumes.
- Earlier months (Q1 2024) show message-focused high spend with variable CPM.

📊 Strategic Recommendations

1️⃣ Investment Strategy

- **Increase Mahar Real Estate budget further.**
  - Consistent low CPL, highest efficiency.
  - Target larger volumes to further improve ROI.
- **Optimize Vistro Real Estate.**
  - Already strong in volume; focus on reducing CPL slightly (currently ~Rs1,500–Rs1,800).
- **Review and potentially reduce Zavia spend.**
  - High CPL and unstable lead conversion performance.

- **Maintain Inaya Estate budget.**
    - Middle-ground performance; moderate CPL, but reliable.

2️⃣ Cost Optimization

- **Reallocate from Zavia and Kings to Mahar and Vistro.**
- Prioritize campaigns designed for lead generation rather than messages.

3️⃣ Advanced Analytics

- **Forecasting:**
    - Mahar is projected to reach ~230 leads/month at Rs1,300–Rs1,400 CPL if the budget is maintained or slightly increased.
- **What-if Scenarios:**
    - If Rs100,000 is reallocated from Zavia to Mahar, expect 60–70 additional leads per month at lower CPL.
- **Correlation:**
    - Clear positive correlation between spend and leads, but efficiency drops when CPL exceeds Rs3,000 (e.g., Zavia).

💬 Key Business Questions Answered

- **Which platform gives the best ROI?**
  ✅ Mahar Real Estate — lowest CPL, highest efficiency.
- **Where to invest more?**
  ✅ Increase Mahar, optimize Vistro, review Zavia.
- **What are the trends?**
  ✅ Shift to leads, improving efficiency in 2025.
- **Cost optimization?**
  ✅ Reallocate to low-CPL platforms, avoid purely message-based spend.

✅ **Action Items**

1️⃣ Increase Mahar Real Estate's budget by Rs100,000–Rs150,000 per month.
2️⃣ Pilot additional budget reallocation from Zavia to Vistro.
3️⃣ Set efficiency target: < Rs1,500 CPL across platforms.
4️⃣ Prepare new dashboards with suggested visuals for monthly executive tracking.

🌟 **Strategic Deep Analysis: Star Performer & Optimized Budget Allocation**

🏆 **Step 1: Identify the Star Performer**

Evaluation criteria

1️⃣ **Lowest CPL (cost per lead)** — ultimate efficiency.
2️⃣ **Highest lead volume** — capacity to scale.
3️⃣ **Consistent performance trend** — stable ROI.

Performance snapshot (Dec 2024 – May 2025)

Page	Total Leads	Avg CPL (approx.)	Max Leads in a Month
Mahar Real Estate	677	~Rs2,100	187 (May)
Inaya Estate	463	~Rs2,030	87 (April)
Kings Real Estate	466	~Rs2,800	140 (April)
Zavia	381	~Rs2,940	120 (April)

Result

✅ **Mahar Real Estate** is the **star performer**:

- Highest overall lead count.
- Lowest CPL in recent months (~Rs1,337 in May).
- Clear capacity to scale, with consistent improvements as budget increased.

💰 Step 2: Proposed Optimized Budget Allocation

Past budget (Dec 2024 – May 2025)

Page	Total Lead Spend	Avg Monthly Spend on Leads
Mahar Real Estate	Rs1,250,000	~Rs208,000
Inaya Estate	Rs750,000	~Rs125,000
Kings Real Estate	Rs1,250,000	~Rs208,000
Zavia	Rs950,000	~Rs158,000

Efficiency vs Spend

- Mahar outperforms even at a relatively moderate budget.
- Kings and Zavia consume similar or higher budgets but have higher CPL.
- Inaya performs moderately, can be maintained or slightly optimized.

💡 Recommendation: Reallocation & Increase

Target monthly budget for maximum efficiency

Page	Recommended Budget	Rationale
Mahar Real Estate	Rs300,000	Proven scaling capacity, CPL drops as volume rises.
Vistro Real Estate	Rs250,000	Historically strong on messages, good lead potential if optimized further.
Inaya Estate	Rs150,000	Consistent moderate performer; maintain presence.
Kings Real Estate	Rs150,000	Reduce; reallocate to Mahar & Vistro.
Zavia	Rs100,000	Reduce sharply; underperforms.

What does this achieve?

✅ Mahar's leads could grow from ~187 to ~250 per month at ~Rs1,300–Rs1,500 CPL.
✅ Vistro could potentially generate ~180–200 leads per month if CPL optimizes below Rs1,800.
✅ Combined, these two pages could deliver >450 qualified leads monthly — at an average CPL lower than Rs1,700 overall.

📈 Potential Monthly Leads Estimate (with new budgets)

Page	Leads Estimate	Total Spend	Total Leads
Mahar Real Estate	~250	Rs300,000	~250
Vistro Real Estate	~180	Rs250,000	~180
Inaya Estate	~100	Rs150,000	~100
Kings Real Estate	~80	Rs150,000	~80
Zavia	~40	Rs100,000	~40
Total	**~650**	**Rs950,000**	**~650**

💥 Key Benefits

- **More leads for the same or slightly higher budget** — stronger ROI.
- **Focus on star performers (Mahar + Vistro)** — proven best results.
- **Reduce waste** — remove inefficient spend on Zavia & Kings.

🗺️ Final Strategic Recommendations

1️⃣ Increase Mahar Real Estate to Rs300,000 per month immediately.
2️⃣ Scale up Vistro Real Estate to Rs250,000, shift strategy toward leads rather than just messages.
3️⃣ Maintain or slightly reduce Inaya Estate, focus on stability.
4️⃣ Reduce Kings and Zavia substantially, reinvest the freed budget.
5️⃣ Monitor CPL monthly; target <Rs1,500 average overall.

✅ **Summary: Mahar Real Estate is the "star performer" and should receive the highest incremental budget. Pairing it with Vistro Real Estate (strong historical performance) will maximize leads and reduce average CPL across the board.**

✅ Detailed Visual & Table Report: Star Performer and Proposed Reallocation

---

🌟 Visual 1: Proposed Spend vs Expected Leads

- **Blue bars**: Proposed monthly budget.
- **Green line**: Expected leads from each page after budget optimization.

You can see Mahar Real Estate and Vistro Real Estate stand out as **high-lead generators** even at higher budgets.

💰 Visual 2: Estimated CPL (Cost per Lead)

- Mahar Real Estate achieves the **lowest estimated CPL (~Rs1,200)**, confirming it as the top performer.
- Vistro follows (~Rs1,389), showing great potential if scaled.
- Zavia has the highest CPL (~Rs2,500), suggesting it should receive the least investment.

🏅 Optimized Budget & Performance Table

Page	Current Spend (Rs)	Proposed Spend (Rs)	Expected Leads	Estimated CPL (Rs)
Mahar Real Estate	208,000	300,000	250	1,200
Vistro Real Estate	0	250,000	180	1,389
Inaya Estate	125,000	150,000	100	1,500

Page	Current Spend (Rs)	Proposed Spend (Rs)	Expected Leads	Estimated CPL (Rs)
Kings Real Estate	208,000	150,000	80	1,875
Zavia	158,000	100,000	40	2,500

💡 Key Takeaways

✅ **Star Performer**: Mahar Real Estate (lowest CPL, highest lead scalability).
✅ **Second Star**: Vistro Real Estate (high potential when shifting to leads).
✅ **Reallocation Recommendation**:

- Increase Mahar to Rs300,000.
- Increase Vistro to Rs250,000.
- Reduce Kings to Rs150,000.
- Maintain Inaya at Rs150,000.
- Minimize Zavia to Rs100,000.

⚖️ Expected Outcome

- **Total Monthly Leads**: ~650
- **Average CPL**: ~Rs1,500 overall (significant efficiency improvement)
- **Better ROI**: Focus on channels proven to scale profitably.
